

what do I want to learn or understand better?

I want to learn more about the basics of schizophrenia since this is what the patients who will use our app suffer from. I would also like to learn how to code for android.

how can I help someone else, or the entire team, to learn something new?

I can contribute with ideas for the app and more specifically the layout of the mock up.

what is my contribution towards the team's use of Scrum?

We haven't really been able to break anything down in sprints yet since it's mostly things we need to do together as a group.

what is my contribution towards the team's deliveries?

I helped with the mock up and tried to give input while conducting the interview to get a clearer view on how to move forward and what is required from us.
