Individual Reflection – Elin

What do I want to learn or understand better?
I am looking forward to getting better understanding of the process of deliver an app. Also getting better understanding of the need of the app we are creating, which will be received during the dialogue with the doctors. I also want to learn the easiest/best way of coding an app.

How can I help someone else, or the entire team, to learn something new?
I believe that I can contribute to learn the team more about how business model canvas works, and the different parts of it. Also, why it is important and how you in a good way creates one.

What is my contribution towards the team's use of Scrum?
I participated in the exercise with Minetest and by that tried to get myself, and also the others better understanding of how Scrum works.

What is my contribution towards the team's deliveries?
I helped some of the others to understand how business model canvas works. Contributed with ideas for it as well. I gave some ideas of how the app will be built. Also contributed in the exercises and lectures, and in our meeting with our stakeholder.
